

FAQs

Why should I hire a Wedding planner?

Planning a Wedding can be a very stressful and time consuming event, some couples find the pressure to create this perfect day within a budget hard work. Hiring a Wedding planner gives you professional guidance to create a memorable experience and most important, make the whole process enjoyable and enable you time to remember the reasons why you are getting married. I am here to guide you along the way and bring all your ideas together to create a special day.

Is a Wedding planner and co-ordinator the same?

No, these are very different but can run alongside each other well. A Wedding planner helps create your special day working alongside you with your ideas, whereas a co-ordinator is there at the end of all the planning when you feel you need someone to guide the day and ensure that all your plans run smoothly so you can relax and enjoy. A Wedding planner is there from the beginning whereas a co-ordinator is only on the day of the Wedding.

We need some guidance with our Wedding planning but cannot afford the full package...

I offer a range of different packages from full planning, partial planning to 1 hour consultations. Get In touch and we can discuss which areas you need help with.

Will I still have control over my Wedding?

Absolutely! This is your Wedding day not mine and I am here to help you create the day of your dreams. I am here as professional guidance to offer support and advice, ideas and suppliers. I love working with different couples to create a very different day from one to the next. After all your Wedding should be personal and unique to you.

What can I expect from our first initial consultation?

Your free initial consultation will be an hour either face to face or over the phone. This is the chance for me to get to know you and your ideas and see where and how I can help within your planning. It will also give you a chance to get to know me and decide if I am right for you. I will follow up a few days later and if you are ready to book I will draw up an information pack, some ideas and a Wedding timeline guide. Then the planning can begin!

When should I book my Wedding planner?

As soon as you feel the time is right. For some brides this is the first thing they book, others they decide they need professional guidance part way through the planning process. No time is right or wrong. However if you are wanting full planning services the sooner the better so we can start right at the beginning.

How does on the day co-ordination work?

As I Wedding co-ordinator I am here to help on the day of your Wedding. You have spent months, maybe years planning your dream day so why spend it stressed, rushing around and panicking. I will be at your venue from early morning right up until the first dance, ensuring the day runs smoothly, everyone is in the correct place, suppliers are on time and most importantly that you are relaxed and enjoying your day. Wedding co-ordination is best for the DIY brides at a venue with minimal staff.
